ANOTHER "BIG" ANNOUNCEMENT:

The Shaklee Telomere Research Landmark Study II

This time, Shaklee is partnering with Dr. Elizabeth Blackburn of the University of California, San Francisco. Dr. Blackburn is a Nobel Prize winner in physiology of medicine.

Learn more about Dr. Blackburn's telomere research here...http://biochemistry.ucsf.edu/labs/blackburn/index.php?
option=com_content&view=article&id=1&Itemid=3

She discovered how chromosomes are protected by telomeres (biomarkers of aging and could be the key to cancer and aging) and the enzyme telomerase.

This study on DNA and longevity includes 107 Shaklee participants who have been taking Shaklee (Vitalizer, Vivix and Cinch) for approximately five years — as well as a group of non supplement users.

Preliminary results of the study are very impressive.

NEW ADVANCED JOINT HEALTH COMPLEX

JOINT COMFORT IN AS FEW AS "5" DAYS OR LESS.

New Advanced Joint Health Complex contains a patent-pending, fast-acting form of Boswellia extract, a concentrated form of glucosamine and other key joint nutrients to help bring joint comfort and mobility.

- Unique combination of key joint health nutrients: zinc, copper, manganese, and vitamin C – each playing a unique and critical role in building healthy connective collagen and cartilage
- •Chondroitin-free for better glucosamine absorption
- •100% shellfish free
- •100% vegetarian no animal-derived ingredients
- Easy open flip-top cap

Joint Health: Item #20281 Retail Price: \$44.65 Member Price: \$37.95

The Power of Boswellia

In several studies Boswellia has been found to have anti-inflammatory activity similar to that of the non-steroidal anti-inflammatory drugs (NSAIDs) used in conventional medicine. However, unlike NSAIDs, Boswellia does not seem to cause stomach irritation or ulceration. In fact, one small study found that Boswellia may actually be helpful in the treatment of ulcerative colitis.

NOTE: Boswellia can also be found in higher amounts (1,000 mg) in Shaklee's Pain Relief Complex.

GENEROUS REFERRAL PROGRAM

Send a link with a special invitation from the member center to your friends.

Every time a friend that you have referred purchases \$25.00 in products, you get a \$25.00 credit added to your account.

You can refer as many as 100 referrals per day!

REFER A FRIEND AND RECEIVE A \$25.00 THANK YOU CREDIT.

REFER 3 FRIENDS RECEIVE A \$7,5.00 CREDIT ETC!

Members Only Program

Your referrals get to buy at a 15% discount or they can opt for the Free Membership with a Vitalizer purchase.

Use this program as a Hostess Gift for a member. For every guest who buys at the presentation, the Hostess (member) receives a \$25.00 credit. 5 buying guests equals \$125.00 credit!

BERRIES ARE BEST

The fruit wars are under way!

First it was the acai berry. Then mangosteen then goji. And now it seems like there is a new exotic fruit marketed each month.

They say that common berries - things like red raspberries, black raspberries, blackberries, blueberries and strawberries - are just as beneficial as the exotic fruits, if not more so.

The experts are telling us that we don't need to go to South America or the South Pacific to find the perfect fruits. They are growing in our own back yards!

ALL VITALIZERS NOW HAVE 130 MG OF TRIPLE BERRY EXTRACT.

Astronaut **Captain Mark Kelly** was a speaker at the Shaklee Global Conference in August. He was the captain of the historic final NASA mission on July 8, 2011 and has been into space more than any other astronaut. Many people know him as the husband of Arizona Congress Woman Gabriel Giffords who was shot earlier this year. On NASA's final mission, Capt. Kelly personally shot video of the Vitalizer vitamins in outer space.

Every astronaut in every NASA mission has taken Shaklee products since 1993. NASA came to Shaklee in the early 1990's to ask for assistance in keeping the astronauts safe while returning to earth.

Astronauts experience GRS, or General Re-entry Syndrome. GRS's symptoms include vertigo, fatigue, astrointestinal discomfort, disequilibrium and general debilitation occurring during reentry to earth's atmosphere and immediately after landing. **AstroAde was**

specifically designed by Shaklee in conjunction with NASA scientists to combat this unique set of challenges facing the shuttle astronauts.

Stacey
ReynoldsPeterson
My Shaklee
Story

Two ½ years ago I was playing golf every weekend, practicing a couple of times a week, working out, life was good and then

one day I woke up and couldn't move. My entire body hurt from head to toe. I was in such agonizing pain I had to call my daughter to come take care of me. I was diagnosed with **Rheumatoid Arthritis and Fibromyalgia**, going from one Doctor to the next trying to find some relief. The Doctors had me on all kinds of prescription medications as well as vitamins and supplements.

I just happened to be watching 60 Minutes and they had a segment on "The Dirty Dozen" where they talked about over 60% of the vitamins and supplements sold on the market today were harmful for us to take and that Consumer Reports had been warning us about this for years.

I went to a health food store I spent over \$200.00, came home with 7 different bottles and realized I still had no idea if

these vitamins contained any of "The Dirty Dozen". This started my research of the supplement industry!

One day I happened to be talking to my dear friend Kaki O"Shaughnessy and she asked me if I had ever heard of Shaklee. My dear friend could tell that I was in bad shape and she graciously sent me Vitalizer, Vivix, NutriFeron and Energizing Soy Protein Shake and said, "Stacey, just trust me."

I went to visit Kaki about 3 months later and said "Kak I have a surprise for you, I have been pain free for a whole month!" Kaki was elated .. I was excited but still not 100% convinced.

I ran out of products and didn't have the money at the time to purchase more and I found myself in the hospital in unbearable pain once again. I began taking the Shaklee products again and what do you know I was feeling much better; so much better I was convinced it was the Shaklee products that were finally making the difference. I have been able to stop taking several of my prescription medications!

I know that Shaklee offers the purest and safest products available so I started my own Shaklee Business in April 2011,

so I could share my story with others!

DIRTY DOZEN: http://

pdf/dirtydozen1.pdf

HOT FLASHES

I just turned 50 last month and with that came hot flashes. I suffered with them for about two weeks and then looked for something from Shaklee. Sure enough, they had something for it. I have been taking the Menopause Balance

Complex now for a week and I went from having about 20 hot flashes per day/night to 1! It's like a miracle in a bottle!! Just like the

Cholesterol Reduction Complex.

Just had to share this with you, again.

Pam Lumsden

IMPORTANT TO KNOW

The size of the LDL cholesterol is more important than the amount". The larger being better as it does not enter into the vessel walls.

Heart Health Special Report from Johns Hopkins http://www.johnshopkinshealthalerts.com/reports/heart_health/
1886-1.ht

The New Blood Lipid Tests: Sizing Up LDL Cholesterol
Studies show that people whose LDL cholesterol is made up of
predominantly small, dense particles have a threefold greater
risk of coronary heart disease. And now there are tests to
measure LDL particle size. Should you talk with your
cardiologist about these tests?

Chronic Stress responsible for 75-90% of visits to doctors!

The symptoms of stress are

PAIN, FATIGUE, DEPRESSION, DIGESTIVE PROBLEMS, DEPRESSED IMMUNE SYSTEM AND LOOK HOW STRESS CAN DRAMATICALLY CHANGE OUR APPEARANCE!

STRESS = EXCESS CORTISOL = VISIBLE AGING

How does the drug industry respond to stress the top five drugs sold are pain killers, anti-depressants, high blood pressure medication, ulcer medication and antibiotics. Chronic stress is the greatest KILLER of North Americans. The death certificate may say "coronary disease", but the root cause may have been stress.

Shaklee's NEW "Stress Relief Complex" offers help to all who live in a high speed, dot com, multi-tasking society.

How does it work? First of all let's understand what happens with chronic stress The heart speeds up, the blood pressure goes up, blood sugar goes up (causing cholesterol & triglycerides problems), blood vessels to the skin, digestive tract & other organs constrict, blood gets thicker & clots more easily, and high levels of CORTISOL are released from the adrenal cortex which cannibalize various organs, depress the immune system and causes the brain function to slow down not a pretty picture.

Stress Relief Complex (#20656) contains four key ingredients: L-theanine & L-Tyrosine, Ashwagandha (an herb), and Beta-Sitosterol (a plant sterol).

These ingredients:

- · Decrease the production of CORTISOL,
- · Increase the "alpha waves" in the brain which promotes relaxation, but makes you more alert at the same time.
- · Enhance memory & retention and increases physical performance
- · Aid with stress-related insomnia

Who do you know that needs this product NOW?

I have some very exciting news. The first time I got my blood tested for a cholesterol level was about 15 years ago, and at that time my cholesterol was 206. Over the years it has slowly risen, until it reached 245 in January 2010. As I have an underlying heart condition, both my primary doctor and my cardiologist have been urging me to go on cholesterol reducing medication for several years, and I have resisted.

I became a vegetarian and started to exercise more regularly, hoping that would help. In January 2011 my cholesterol had dropped -- ONE POINT. I was very disappointed. I'm still a vegetarian, and exercise even more, but I added two supplements that has made all the difference.

Reduction Complex and Omega Guard. My cholesterol dropped again, but this time significantly. After six months on the two supplements, my cholesterol level is now . . . 198!

My doctor agrees that I should continue with what

I'm doing and I do not need to go on medication. These products truly work, and they are natural.

I'm convinced -- these products really work.

Katie Sweeting English Professor

Yummy Protein Bars

(healthy after school snack)

1 cup Shaklee Instant Protein Soy Mix

1 cup Old-Fashioned Oats - uncooked

2 T Ground flaxseed

1/2 cup Honey

1 cup Peanut Butter or Almond Butter

2 1/2 tsp Vanilla

2/3 cup Raisins or dried Cranberries

Combine oats, protein & fiber in large bowl. Set aside. Bring honey to a boil on stovetop. Remove from heat and stir in peanut butter and vanilla until smooth. Immediately add honey mixture to dry mixture until well incorporated. Refrigerate for 20-25 minutes.

INSOMNIA PUT TO "SLEEP"

I'm so excited to share with you the HUGE difference the Stress Relief Complex has made in our lives. My Darlin' Jack has battled with sleeplessness for years. He says he is a light sleeper but I know he is up most nights, often for hours at a time. His father is the same way so I figured it was genetic and tried Valerian, Calcium, Melatonin and exercises....some relief with the 1st 2....but still not total relief. FRUSTRATING. Jack now takes a Stress Relief Complex before bed and sleeps through the night - every night!

May this assist others to have sound, relaxing sleep.

Jude P.
